OFFICE OF THE ~~MUNICIPAL COMMISSION~~ Council,

City, Bangalore, 17th February 1910

Jnl 514-08

FROM

THE PRESIDENT,

Municipal ~~Commission~~ Council, Sl 6

Bangalore City

To

The Secretary to the Government of

His Highness the Maharaja of Mysore,

General and Revenue Departments,

Bangalore

SIR,

Reference - Government Proceedings No 6213/Jl 514-08 dated the 20th Ultimo in the matter of the damage caused to the main out-fall sewers of Chamarajpet and Basavangudi Extensions and of the neglected condition of the main drain and other works passed over to the Municipality by the Public Works Department

- ØØ -- - ØØ - -ØØ- -

I have the honour to invite his reference to my letter No 173 dated the 10th Instant, reporting, as called for in the General and Revenue Secretary's docket No 13250/Jl 514-08 dated the 30th June 1909, the circumstances under which the damage occurred to the main drain

2 With regard to the main out-fall sewers of Chamarajpet and Basavangudi, I beg to state that the first communication that was received in May 1909 from the Sanitary Engineer, intimating that the gulli-trap in the main drain in Chamarajpet was choked up and that the sewage water instead of flowing into the drain found its way to the tank etc , was forwarded to the

(2

Health Officer for needful action as what was required was considered to be mere cleaning of the trap by removing silt Etc

The Health Officer did not take any action in the matter as he found the work to be done was one of repair to be carried out by the Municipal Public Works Department, but by the time he intimated this in December last, the Sanitary Engineer had executed the necessary repairs and communicated the fact to this office

The damage to the out-fall sewer in question is stated to be due rather to the faulty construction of the dry stone revetment than to the neglect of the Municipality

3 As for the main out-fall sewer of the Basavangudi Extension, I have to add that the pipes which are broken will be replaced with good ones as soon as they are received-for which an order has been sent

The gardeners through whose lands the Basavangudi Main Sewer passes are reported to have ploughed up their lands quite close to the pipe-line exposing the concrete foundations to some extent Steps are being taken to prosecute the gardeners, if possible, or otherwise to notice their conduct for the damage done to the pipe-line

I have the honour to be

Sir,

Your most obedient servant,

for President

READ— Letter No 1828/17-2-10 from the President, Bangalore City Municipal Council, stating with reference to G.O. No 3213/Mul 514-88/25-1-1910, that on receipt of the Sanitary Engineer's letter in January 1909 regarding the damage caused to the main drain in the Chamarajapet Extension, the Health Officer was asked to take the needful action in the matter, that the latter did not take any action till the last extremity when the Sanitary Engineer had executed the necessary repairs and communicated the fact to his office, that the damage to the sewer in question is stated to have occurred

OVER THEREON No 210

SUBJECT

due rather to the faulty construction of the dry stone revetment than to the neglect of the Municipality; that as regards the main out-fall sewer of the Basavaguda Extension, the pipes, which are reported to be broken, will be replaced as soon as fresh ones are received and that steps are being taken to prosecute or otherwise take notice of the conduct of the gardeners who are reported to have ploughed up the lands quite close to the pipe-line exposing the concrete foundations to some extent.

Order thereon 7673-Genl 5-14-08- 9231

The Pres[t] attention is invited to the necessity of keeping the above works in an efficient state of repair. The Municipal Executive should inspect the works constantly and attend to repairs promptly. It is noted that in the present instance the damage was brought to the notice of the Municipal authorities by the Savy Engr himself got the damage repaired.
